PROJECTS

The Emporium

[Link](#)

Python, Django, SQLite, HTML, CSS, Bootstrap, Pycharm

Jan 2024 – Apr 2024

- Developed a user-friendly Dairy Product Management System using Python Django, enabling efficient inventory management, sales tracking, and customer engagement.
- Designed and implemented "The Emporium" website for online dairy product shopping, enhancing business reach and profitability through secure registration, product categorization & instant online razorpay payment features.
- Collaborated with a team to integrate essential modules such as admin login, product details management, customer profiles, and real-time sales reporting, ensuring smooth operations and enhanced user experience.

Jet Journey

[Link](#)

Python, Django, SQLite, HTML, CSS, Bootstrap, Pycharm

Aug 2023 - Dec 2023

- Developed a modern Car Rental System using Django framework, enhancing the vehicle rental process with user-friendly interfaces and secure online transactions.
- Implemented real-time updates for accurate vehicle availability, integrated payment gateways, and provided administrators with comprehensive tools for efficient fleet management.
- Designed a scalable architecture with advanced analytics capabilities, ensuring data security, user privacy, and a seamless user experience for customers and administrators.

Musical Instrument System

[Link](#)

Java, JSP, Servlet, JDBC, MySQL, Eclipse

November 2022 - March 2023

- Developed an offline windows-based "Musical Instrument System" application to automate manual record-keeping of product, customer, vendor, and sales details, enhancing data accuracy and security.
- Implemented user-friendly features for easy access to product information, purchase, and sales details, reducing clerical work and improving operational efficiency.
- Utilized Java Servlet/JSP, MySQL, and Bootstrap technologies to create a robust system with modules for admin login, product management, customer/vendor details, and sales reporting, ensuring seamless functionality and enhanced user experience.

CERTIFICATIONS

- Full Stack Web Development
- Java Full Stack
- Python Programming

AWARDS

- **Best Achiever** in College.
- **Winner** in College Mobile Game Competition.
